## Ultra-Compact USB Flash Drive

How small can a USB flash drive be while remaining tough and resistant to pressure, bending and impact? The answer is easy – Transcend's T3 compact durable flash drive. While other super-small flash drives are fragile and can bend or break under pressure, the T3 is built extra-rugged to withstand tough, daily use.

The T3's tiny size and light weight (2g) gives you the freedom to carry it in places normal flash drives just do not fit. You can simply attach it to your mobile phone or keychain or even tuck it into your wallet so you'll always have a storage device with you wherever you go. Transcend also offers a special 5-pack of T3 drives that comes with a slim-line carrying case, giving you even more options and flexibility.

## JetFlash® elite v2.0

### Protect your computer with confidence

Use your JetFlash as a key to lock your desktop or notebook computer and prevent others from accessing your data while you are away. Simply unplug the JetFlash to lock, and plug it back in to unlock.

PC-Lock

### Browse your favorite websites wherever you go

The Favorites function saves a copy of all your Internet Explorer Favorites on your JetFlash, allowing you to plug your JetFlash into any compatible computer and browse your websites just like you would at home.

Favorites

### Powerful security with encrypted file-compression

Compress your saved files to maximize memory storage space and password-protect your data with powerful 256-bit AES Encryption. With Secret-Zip, you can store files securely while saving space at the same time.

Secret-Zip

### Backup, restore and synchronize your mobile data

Automatically backup, restore, and synchronize your important data. Once a backup is created on your JetFlash, DataBackup allows you to instantly update the backup with any modifications you might make in the future with a single mouse click.

DataBackup

### Convenient one-click automatic website log in

Instantly log in to your online website accounts with just a single mouse click. AutoLogin keeps a secure database of all your online usernames and passwords on your JetFlash, so you'll never worry about losing your password again.

AutoLogin

### Take your E-mail with you on the road

JetFlash elite allows you to store your E-mail for easy access when traveling. Send, receive, and save email safely on your JetFlash using any compatible computer – without leaving any trace of your correspondence for others to find.

E-Mail

### A shortcut to all your JetFlash data

Just one easy click opens your JetFlash folder, so you can manage your files quickly and easily.

My JetFlash

- ★ JetFlash elite software only works with Windows® 2000/XP/Vista™
- ★ To use PC-Lock and AutoLogin you must log in to the computer you are using with Administrator rights.
